

NELSONRENNIS S

Data Analyst → Aspiring AI/ML Engineer

Chennai, India | nelsonrennis2003@gmail.com | 9345558134 | linkedin.com/in/nelson-rennis | github.com/NELSONRENNIS

PROFESSIONAL SUMMARY

Project Data Analyst with 2+ years of hands-on experience in Excel, Power BI, and SQL, backed by a Computer Science degree specialized in Artificial Intelligence. Actively transitioning into AI/ML engineering by building practical machine learning projects and completing technical certifications, combining a strong data foundation with growing AI capability.

CORE SKILLS

Data Analytics: Microsoft Excel (Pivot Tables, XLOOKUP, SUMIFS) · Power BI (DAX, Dashboards) · SQL · KPI & Variance Tracking · Data Validation & Reconciliation
AI / Machine Learning: Python (Pandas, NumPy) · scikit-learn · Machine Learning Fundamentals · Data Preprocessing for ML · Jupyter / Kaggle Notebooks
Other: Project Coordination · Stakeholder Reporting · ClickUp · Cloud Fundamentals (Google Cloud)

PROFESSIONAL EXPERIENCE

Project Data Analyst — Junior PMO Executive Oct 2025 – May 2026
AGC Apps Private Limited · Chennai

- Managed and validated project data from Kimble, ensuring accuracy in timesheets, resource allocation, and cost tracking.
- Performed data extraction, reconciliation, and reporting using Excel to support project monitoring and decision-making.
- Tracked resource utilization, effort, and project performance metrics, supporting planning and forecasting activities.
- Prepared Excel-based reports and summaries for stakeholders, highlighting key metrics and trends.
- Assisted in project estimation and capacity planning by analyzing resource availability and workload distribution.
- Monitored planned vs. actual data (effort, cost, timelines) and supported variance analysis.
- Improved reporting accuracy by applying structured data handling and validation techniques.

Technical Business Analyst & Frontend Developer May 2024 – May 2025
Geometriccae Engineering Services Pvt Ltd · Chennai

- Coordinated multiple data-driven projects by managing timelines, tracking deliverables, and ensuring business alignment using ClickUp.
- Partnered with stakeholders to define project scope and create structured workflows that improved project clarity.
- Designed dashboards and reports to monitor project progress and enable data-driven decision-making for leadership.
- Standardized reporting processes and increased project efficiency by 20% by automating data collection.

AI / ML PROJECTS (IN PROGRESS)

House Price Prediction Model

- Built a regression model (Linear Regression, Random Forest) to predict housing prices using Python and scikit-learn; applied data-cleaning expertise from analyst background to feature engineering.

Employee Attrition Prediction

- Developed a classification model to predict employee attrition risk from HR data, directly extending PMO reporting experience into predictive analytics.

Customer Feedback Sentiment Classifier

- Building an NLP-based sentiment classifier (TF-IDF + Naive Bayes) to categorize customer feedback as positive, negative, or neutral.

EDUCATION

B.E., Computer Science with Artificial Intelligence 2020 – 2024
Sathyabama Institute of Science & Technology, Chennai · CGPA: 8.6 / 10

CERTIFICATIONS

- Introduction to Machine Learning — Kaggle
- Advanced Python — Kaggle
- Career Essentials in Data Analysis — LinkedIn & Microsoft
- Cloud for Professionals — Google Cloud
- Google Project Management Certification — Google / Coursera (In Progress)
